

RETROFLEX

PARTS - SERVICE - ACCESSORIES

Guards, shields and safety devices removed for illustration purposes only; do not operate without these items in place and functioning.

DOCTOR BLADE MATERIAL

Metal doctoring blade in white or blue steel is available with stepped, straight, beveled or radius tips.

Plastic doctoring blade is available with straight or beveled tips.

Trailing containment blade for enclosed chamber type doctoring systems is also stocked.

All blade material is available in a variety of widths and thickness, in roll form or custom cut to length.

RETROFLEX provides parts and accessories for your RETROFLEX equipment as well as a variety of consumable parts and accessories for equipment of other manufacturers. If the item is not in stock we can get it quickly. We can stock special items for you on request.

Consumable items such as doctor blade material, end seals and stickyback are stocked in a wide selection of sizes and types. Let RETROFLEX set up a computerized blanket order for you. This will assure you of getting a pre-scheduled delivery of your consumable item without the hassle of a hurried, last minute order request. This offers you peace of mind in knowing that these items will be in your hands when you need them, not in transit, causing costly downtime.

STICKYBACK TAPE

State-of-the-art stickyback plate mounting tape is stocked in a wide selection of density and gauge to suit nearly every photopolymer plate mounting application.

FLUID PUMPS

Pumps are available in centrifugal, peristaltic and diaphragm type design. Fluid filters, surge suppressors, hoses, fittings and various related items are also available to improve your pump system.

SERVICE AND TRAINING

Experienced RETROFLEX service technicians are available for on-site installation and training for all RETROFLEX equipment. Training seminars can be held at your plant or ours. This allows you to achieve maximum profits and satisfaction from your RETROFLEX equipment purchase.

ROLLS

Anilox rolls with laser or mechanical engraving, plate rolls and guide rolls are available.

END SEALS

RETROFLEX stocks seals for our own enclosed doctoring systems as well as chambered systems by other manufacturers. End seals are available in a variety of materials to suit your specific face sealing requirements.

PROTECTIVE ROLL COVERS

RETROFLEX Protective Roll Covers are designed to fit your anilox rolls, gravure rolls, and plate cylinders. These heavy vinyl covers protect virtually any type and size of roll in your plant. Removal and installation is quick and easy.

Our knowledgeable customer service staff can help you with the selection and use of each part and accessory.

The RETROFLEX service support staff can provide on-site assistance with the installation and training of all RETROFLEX equipment. These technicians are also available by phone to offer immediate assistance with any questions or concerns you may have.

RETROFLEX is available by phone, fax and e-mail. If you need parts, service or accessories, or if you just have a question, contact RETROFLEX today.
